**MAYDAY FUND ANNOUNCES 2025-2026 WINNERS OF
THE MAYDAY PAIN AND SOCIETY FELLOWSHIP**

***Twelve pain experts selected to a fellowship program focused on
communications and advocacy for improved pain care***

NEW YORK (July 22, 2025) – The Mayday Fund has announced the selection of 12 experts in pain science and care to be Fellows of [The Mayday Pain & Society Fellowship: Communicating Science & Improving Care](#). The Fellows come from across the United States and Canada, with a wide range of expertise, including psychology, epidemiology, physiotherapy, pharmacy and more.

The Fellows were selected from 43 applicants by a multi-disciplinary Advisory Committee, comprising leaders working on pain-related issues in the U.S. and Canada.

“The newest class of Fellows shows commitment to the study and care of pain. It’s through the Mayday Pain & Society Fellowship that they will expand their communications skills to benefit people in pain across the lifespan,” said Christina Spellman, the Mayday Fund’s executive director. “The Fellowship will inform their efforts, strengthen their advocacy, and improve the science, care and support of people in pain.”

During the workshop in Washington, D.C., from November 2-5, Fellows will learn skills to effectively communicate and advocate for the translation of scientific research and evidence-based best practices in pain care and management. Following the workshop, the Fellows will receive individualized, follow-up coaching to help them pursue their strategic advocacy goals.

The new class of Fellows will join more than 108 experts from the earlier classes of The Mayday Pain & Society Fellowship, which operated from 2004 through 2015 and relaunched in 2018.

“On behalf of the Mayday Fund Board of Directors and Advisors, congratulations to the newest class of Fellows,” said Spellman. “These advocates and leaders are pushing the boundaries of how we understand and treat pain. Through their various disciplines, they’re making it possible to improve care in the U.S. and Canada.”

The 2025 – 2026 Fellows are:

- **Chen X. Chen, PhD, RN, MBBS, FAAN**, Professor & Sorensen Endowed Professor, University of Arizona College of Nursing

About The Mayday Fund

The MAYDAY Fund was established in 1992 to further Shirley Steinman Katzenbach's commitment to social and medical causes. The Directors of the Fund decided to adopt Mrs. Katzenbach's special interest in the treatment of pain as the Fund's mission. The name Mayday commemorates the date of her birth and is the international word signaling a cry for help, taken from the French "m'aidez" or "help me."

The MAYDAY Fund, a 501(c)(3) charitable organization since 1992, engages only in philanthropic grant activities defined by its mission targeting the alleviation of pain. It should not be confused with any other organization that uses a similar name or includes "mayday" in its representation.
